New Bin Tag Collections from September 2019

From September 2019, to comply with Government legislation, every wheelie-bin collected must have a bin-tag attached to it.

We would like to encourage our customers to recycle more of their waste so we have introduced a recycling bin tag.

From the 1st September 2019, when you are presenting wheelie-bin for collection, you will need a tag on every bin.

Every Waste Bin needs a yellow tag and every recycling bin needs a blue tag.

Any bin without a tag will not be collected.

Note:- You cannot purchase a blue tag without a yellow tag.
